In support of these aims and values we are committed to ensuring the following: we are committed treating all our students with respect and dignity.

Introduction

This notice sets out the statement of the School in relation to the Health and Safety at Work Act 1974 ("the Act") and is issued in accordance with Section 2(3) of that Act which requires employers to prepare a written statement of their general policy, organisation arrangements for health, safety and welfare at work, to keep it up to date and bring it to the notice of their employees. Both employers and employees have responsibilities placed upon them by the Act. In this statement, "employees" , "personnel" or "staff" includes all teachers and other individuals who work in the School, whether or not they are employed by the School.

1. Roles and duties

1. The Board of Governors of the School (the "Board") attaches great importance to the health, safety and welfare at work of all its employees

and other users, particularly students, parents, carers and visitors.

2. The Head of School has overall responsibility for Health and Safety and reports to the Board, by whom this responsibility is delegated.
3. The Board, through the Head of School, will take all such steps as are reasonably practicable to meet its health and safety objectives, which are:

 - to provide machinery and equipment that is safe and without risk to health;
 - to provide articles and substances for use at work that are safe when properly used, stored, handled and transported;

 - to control effectively the activity of all outside contractors when on School premises.
4. The Board and the Head of School will cooperate fully in the appointment of Safety Representatives and will provide them where necessary with sufficient facilities and training to carry out this task. The Board and the Head of School have set up a Health and Safety Committee. In this regard the Board reminds staff of their own duties under Section 7 of the Act to take care of their own safety and that of others, and to cooperate with the

Board and the Head of School so as to enable them to carry out their responsibilities successfully.

5. The Board is committed to providing adequate resources to ensure its health and safety objectives under this Policy are met.
6. The School is conscious of the external environment that may be affected by its activities and will pay full regard to the implications of the Environmental Protection Act 1990 and, in particular, the duty of care as regards waste.
7. The Board is aware of, and will meet, the requirements under the Children Act 2004 (as amended) regarding fire provisions and ensuring that staff and students are aware of the School's Health and Safety policies and practices. It is the intention of the School to follow the advice given in 'The Children Act Guidance and Regulations Volume 5 (Safeguarding Children in Education)' and to provide the details required in Regulation 4(2) (f) of the Inspection of Premises, Children and Records (Independent Schools) Regulations 1991.
8. The Board recognises the guidance contained in "Health and Safety: responsibilities and duties for schools" issued by the Department for Education in April 2022.

The School will provide and maintain written Risk Assessments of the risks to the health and safety of its students while they are at school, employees whilst they are at work and others who may be affected, as required by the Management of Health and Safety at Work Regulations 1999.
10. The Board recognises the good practice contained in 'Health and Safety of students on Educational Visits', prepared by the DfE and intends to follow the recommendations it makes.
11. The Board considers that this Health & Safety Policy is an integral element of the overall School's business plan and other resource policies.
