CONCEPT FLOOR PLANS

The project is at the early stages of the design process. More detailed work and technical studies will be carried out to inform the project. The public consultation event is intended to tell the community of the proposed layout options and locations for the Sports Hall and to hear your views at this, still early, stage.

The proposal is to develop a Sport England compliant four-court sports hall as well as an ancillary facility which will include the following areas:

- A four-badminton court sports hall with a spectator seating area;
- Changing rooms and toilets;
- Storage areas;
- A community room and storage room;
- A reception and office; and
- A studio room for class activities such as Yoga or Dance or a gym.

PROPOSED RE-DEVELOPMENT OF THE TENTERDEN PAVILION

SITE PLAN

The Wembley Educational Charitable Trust is looking to replace the Tenterden Pavilion that has come to the end of its useful life in partnership with Brent Council and Forest United Youth FC. The aim of the project is to deliver a new indoor sports facility and ancillary spaces for the benefit of the Lycée International de Londres Winston Churchill and the local community including Headquarters for Forest United Youth FC that will also be available to local societies.

PROPOSED RE-DEVELOPMENT OF THE TENTERDEN PAVILION

Lycée International de Londres Winston Churchill

Lycée International de Londres Winston Churchill opened its doors in 2015 to respond to a growing demand for primary and secondary school places and offers international programmes in a bilingual environment. The school is located in the former Brent Town Hall, about 1.2 miles away from the proposed development project at the Tenterden Sports Ground.

Lycée International de Londres Winston Churchill is an independently funded non-profit charity and as such does not receive any subsidies from the French or British governments. The School aims to welcome all pupils and does not tolerate any form of discrimination. The School accepts student applications regardless of the origin or previous school results of the child.

Sporting activities play a very important part in the curriculum. Due to the pupil number expansion since opening, on-site sports facilities are now becoming overcrowded and access to multi-use facilities outside the school premises is necessary.

In 2017, the school welcomed 900 students of 40 different nationalities, who globally speak 16 languages. 584 families are present in the school. 242 pupils and their families currently live in the London Borough of Brent as well as a large number of staff.

Forest United (1973) Youth Football Club

Formed in 1973, Forest United (1973) Youth Football Club (FUYFC) provides playing opportunities for children who are between 5 and 17 years of age. FUYFC teams play in the Harrow Soccer 7s Combination and the Harrow Youth Leagues.

As a charity, the primary purpose of FUYFC is to support the local community and, as a club which focuses on youth, serves the most vulnerable.

As a youth football club FUYFC delivers, through sport, support for young people in realising their full potential. As well as fitness and sporting values FUYFC also encourages and supports players and members to engage with programmes for gaining coaching qualifications. Forest United have been providing services in the community, especially for young people under the age of 18, for approximately 40 years and has been present at the Tenterden site for approximately 20 years. FUYFC enjoyed full access to the Tenterden Pavilion prior to it being deemed unsafe for use. Successful implementation of this scheme would give Forest a platform to deliver on the objectives contained in its rolling

Development Plan which is to:

- At least double participation in youth sport from current levels;
- Increase co-ordination with schools and other community organisations; and
- Further expand into other non-sporting activities (youth mentoring/tutoring).
